How it works.

TIP: All 3 red temperature lights will be OFF when **Cool Shot** is engaged.

Transform from styler to dryer.

Rotates to change modes

Styling Wand Mode / Hair Dryer Mode

Get to know your stylers*.

- 1 1.25" Auto-Wrap Curlers**
Hassle-free curls in seconds.
 • Uses air power to automatically wrap hair around the barrel, from ends to roots
 • 2 curler barrels to create curls in both directions
- 2 Oval Brush**
Smooths & defrizzes, adds volume & bounce
Smoothing bristles—on the rounded edge for grabbing, smoothing, and shining
Detangling bristles—in the middle for combing and detangling
- 3 Round Brush**
Smooths & defrizzes, adds volume & bounce
Smoothing bristles—on the rounded edge for grabbing, smoothing, and shining
Detangling bristles—in the middle for combing and detangling
 • Best for bangs and short/medium length hair
- 4 Paddle Brush**
Straighten and smooth all at once
Smoothing bristles—to create added tension for straightening, smoothing, and shining
Detangling bristles—for combing and detangling
- 5 FrizzFighter™ Finishing Tool**
Eliminates frizz and flyaways
 Uses Coanda Technology to automatically attract frizz and flyaways and remove them in seconds
- 6 Styling Concentrator**
Style and dry at the same time
 Rotates for easy styling
- 7 Curl-Defining Diffuser**
Fast, even drying from root to tip
 Use the lever to extend or retract the prongs for a customizable airflow
Extended prongs—for longer, thicker hair or reaching and lifting the roots
Retracted prongs—for shorter, finer hair or if the ends need a little extra air
- 8 Wide-Tooth Comb**
Stretch and lengthen from roots to ends
 Uses two rows and two lengths of teeth to stretch and elongate natural curls and coils

*Colors and accessories may vary.

Change the way you curl.™

Recommended Setting:  air  |  temp 

1.25" Auto-Wrap Curlers

Scan the QR code and watch the how-to video to learn how to use your Auto-Wrap Curlers.

Begin with **slightly damp** hair. Separate the **top** and **bottom** sections of your hair.

Pro Tip: Apply hair products or styling agents as desired.

Select the direction of the curls by choosing the corresponding barrel.

Hold the **middle** of a ½-inch-to-1-inch section of hair. Let the ends dangle.

Pro tip: Grab a section of hair that is a consistent length.

Turn on the styling wand. Bring the **top** of the wand behind the ends of your hair. Start feeding your hair at the top of the curler barrel and let your hair wrap around the barrel slowly. The **ends** will automatically wrap around the barrel—*no need to manually wrap*.

Once the ends wrap, let go of the hair section and slowly **bring the barrel directly to the roots**, allowing the hair to continue to wrap itself around the barrel. *No need to twist the wand.*

For best results and to avoid heat damage, **hold the barrel in place for 10 seconds**, then press and hold the **Cool Shot button for at least 10 seconds**. Repeat as needed until hair is dry. **Turn off the styling wand** and pull the barrel straight down to reveal your curl.

Pro Tip: Use a setting or holding spray as desired for an even longer-lasting look.

Additional Styling Tips:

- If it's difficult for your hair to wrap around the barrel, use smaller sections of hair and make sure it isn't too wet.
- Use sectioning clips to prevent unwanted hair from being wrapped around the barrel.
- Test different moisture levels to understand the level of moisture that works best for your hair type.
- For curly or coily hair, prep your hair for curling by lengthening it using the paddle brush or oval brush.

Turn up the volume.

Recommended Setting:  air | temp

Oval Brush

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Begin with **rough-dried or towel-dried hair**.

Pro Tip: Apply hair products or styling agents as desired.

Section your hair as desired. For voluminous blowouts, start by placing the round brush under the hair close to the roots.

Pro Tip: For even more volume, hold the brush under hair close to the roots for 3 seconds before brushing outward.

Roll the brush outward from the roots to the ends to engage the bristles and gently grip the hair.

Pro Tip: For extra volume, brush your hair in an upward direction.

Repeat on remaining sections until hair has been dried into a bouncy, voluminous style.

Pro Tip: Set your style and help reduce frizz by pressing the **Cool Shot** button.

Additional Styling Tips:

- If you have fine hair, try reducing the airflow to help cut down on frizz.
- If you have thick hair, try increasing the heat for even faster results.
- If you have curly or coily hair, try increasing the heat to help achieve a straighter style.
- For an added curl, place the brush under the ends of the hair and roll the brush toward the roots to engage the bristles. Twist the hair off the brush to release the curl.

Round brush blowout.

Recommended Setting:  air | temp

Pro tip: Works great on bangs and short hair.

Round Brush

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Begin with **rough-dried or towel-dried hair.**

Pro Tip: Apply hair products or styling agents as desired.

Section your hair as desired. For voluminous blowouts, start by placing the round brush **under the hair close to the roots.**

Pro Tip: For even more volume, hold the brush under hair close to the roots for 3 seconds before brushing outward.

Roll the brush outward from the roots to the ends to engage the bristles and gently grip the hair.

Pro Tip: For extra volume, brush your hair in an upward direction.

Repeat on remaining sections until hair has been dried into a bouncy, voluminous style.

Pro Tip: Set your style and help reduce frizz by pressing the **Cool Shot button.**

Additional Styling Tips:

- If you have short hair, try reducing the airflow to help cut down on frizz and flyaways.
- If you have thick hair, try increasing the heat for even faster results.
- If you have curly or coily hair, try increasing the heat to help achieve a straighter style.
- For an added curl, place the brush under the ends of the hair and roll the brush toward the roots to engage the bristles. Twist the hair off the brush to release the curl.

Perfect sleek, straight styles.

Recommended Setting:  air  |  temp 

Paddle Brush

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Begin with **rough-dried or towel-dried hair**. Section your hair as desired.

Pro Tip: Apply hair products or styling agents as desired.

For a smooth, sleek style, start by **placing the brush close to the roots** to engage the detangling bristles.

Brush down your hair, making sure to engage the smoothing bristles, and gently grip the hair.

Pro Tip: Hold the ends of your hair while brushing for added tension and smoothing.

Repeat on remaining sections until hair has been dried into a smooth, straight style.

Pro Tip: Set your style and help reduce frizz by pressing the **Cool Shot button**.

Additional Styling Tips:

- If you have fine hair, try reducing the airflow to help cut down on frizz.
- If you have thick hair, try brushing smaller sections for smoother results.
- If you have curly or coily hair, try repeatedly brushing smaller sections and increasing the heat to help achieve a straighter style.
- For added volume, place the brush under the hair section close to the roots and brush upward using a rounding motion.

Go from frizzy to glossy.

Recommended Setting:  air  |  temp 

FrizzFighter™ Finishing Tool

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Begin with **completely dry hair** that has been styled with a concentrator or style brush.

Pro Tip: Works best on straight or straightened hair.

Start at the top of your head, **close to the roots**. Hold until the hair attracts.

Slowly glide the FrizzFighter™ Finishing Tool down the length of your hair. **Gently touch your hair** with the tool—no need to press it against your head.

Repeat around your head.

Additional Styling Tips:

- If you have thinner/finer hair you can decrease the airflow to help reduce flyaways.
- If you have thinner/finer hair you can decrease the heat.

Master smooth, stylish blowouts.

Recommended Setting:  air  |  temp 

Styling Concentrator

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Begin with **rough-dried or towel-dried hair**.

Pro Tip: Apply hair products or styling agents as desired.

Section your hair as desired and start styling with a round brush. **Rotate the concentrator** so airflow is always in line with the round brush.

Apply heat in a downward motion for smoothing.

Pro Tip: Apply heat at ends for shaping and bending.

Finish styling by setting shape at ends and pressing the **Cool Shot button**.

Additional Styling Tips:

- If you have thinner/finer hair, try reducing the airflow to help cut down on frizz.
- To create a curl, wrap your hair around a round brush and dry it in place using the concentrator.
- For added volume, place a round brush under the roots and brush upward while drying with the concentrator.
- For an added curl at the ends, roll the ends of your hair onto a round brush and dry in place using the concentrator.

Define your natural curls.

Recommended Setting:  air  temp 

Curl-Defining Diffuser

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Begin with towel-dried hair. Working around your head, bunch curls from ends between the petals of the diffuser.

Pro Tip: Apply curly hair products or styling agents as desired to wet hair.

Bring the diffuser up to the roots. Pause and hold.

For more volume, slide the lever to **extend prongs to lift roots higher.**

Pro Tip: Gather hair in diffuser with prongs retracted, then extend them when you reach the roots to increase grab and maximize airflow.

If desired, **flip upside down and bunch from below** for extra volume.

Pro Tip: Keep the integrity of your natural curls by switching between Low temp and the **Cool Shot** button.

Additional Styling Tips:

- Apply curly hair products to wet hair before drying to help define your curls and cut down on frizz.
- If you have thick hair, try increasing the heat for even faster results.

Stretch your natural hair.

Recommended Setting:  air  |  temp 

Wide-Tooth Comb

Begin with towel-dried hair. Section your hair as desired. Make sure to **detangle** each section to help prevent snagging.

Pro Tip: Apply your favorite styling products as desired.

Slowly comb your hair from the roots to the ends. Continue combing the section until hair has been **stretched and dried**.

Pro Tip: Hold the ends of your hair while combing for added tension and length.

Repeat on remaining sections. Press the **Cool Shot button** to lock in your style.

Pro Tip: Detach and re-orient the comb as needed to easily reach all areas on your head.

Continue styling your stretched hair as desired.

For additional help and tips based on your hair type, scan the QR code to watch the how-to video and to visit our FAQ page.

Additional Styling Tips:

- Try using the comb while in styling wand mode for more styling versatility.
- For added volume at the roots, comb through hair in an upward direction.
- Decrease the heat to help maintain hair texture while stretching.
