- 4. Side Brush (2X)
- 5. Mopping Pads (quantity varies)
- 6. Odor Cartridge Assembly (1X)
- 7. Shark® Multi-Surface Cleaner 12 oz. (355 mL) Bottle (1X)

SETTING UP YOUR ROBOT

Remove all parts and accessories from the box before starting the following setup steps.

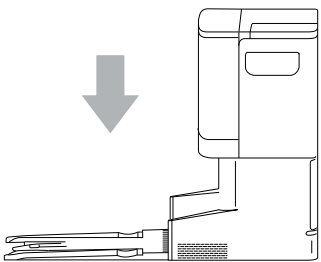

Set Up Base

**Note:** Do not set-up the base on or within 2 feet of a carpeted surface.

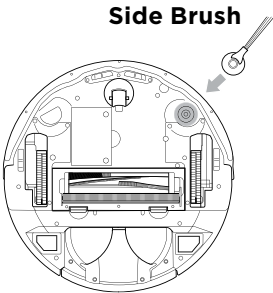

- 1. Remove all plastic wrap and foam.
- 2. Place the base on a flat, level hard-floor surface in a location with strong Wi-Fi signal, with two feet of clearance in front and one foot on either side.
- 3. Ensure the base is not placed in area with direct sunlight.
- 4. Plug in the base. The LED will turn green when it is powered on.

2 Install Ramp On Base & Fill Water Tank

- 1. Align the curved end of the ramp with the base and insert the ramp into the base. Press down until the ramp clicks into place.
- 2. Lift the water tank off the front of the base. Add 12 oz. of cleaning solution. Fill the rest of the tank with room-temperature water up to the MAX fill line, then reinstall the tank.

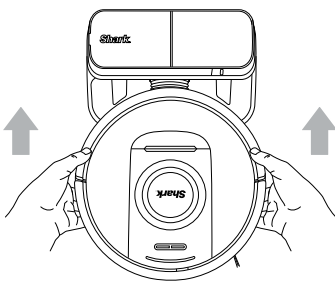

3 Attach a Side Brush to Bottom of Robot

**Note:** Side brush design may vary. Some models include a spare.

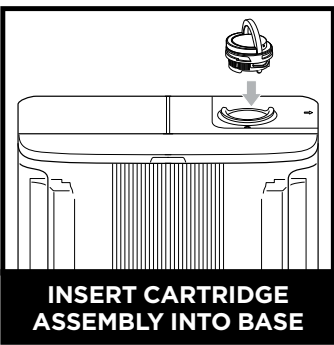

- 1. The side brush can be found inside the robot box.
- 2. Align the hole in the brush over the peg on the bottom of the robot, then press down on the brush until it clicks into place.

Slide Robot Onto Base

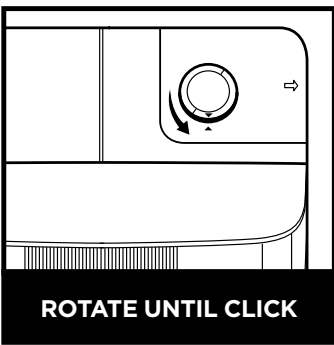

- 1. Align the robot with the Shark logo upside down, then slide it up the ramp, onto the base.
- 2. The LEDs on the base will turn green when the robot is charging.
- 3. After 10 to 15 seconds, the robot will begin to evacuate dust and debris into the base.

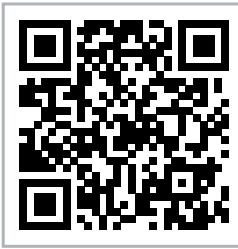

5 Insert Odor Cartridge Assembly

**Note:** Make sure the odor cartridge assembly is installed in the base before using the robot.

6 Download & Explore SharkClean™ App or press the Dry icon on your robot to start a dry clean.

App Features

- ✓ Mapping
- ✓ Scheduling
- ✓ No-Go Zones
- ✓ Cleaning Reports
