💡 TIP: If nozzle headlights are flashing, then the brushroll garage is not completely closed. Ensure the garage is completely closed by pressing down firmly on both sides.

NOTE: Heavy usage over time may require minimal upkeep in order to maintain your vacuum's appearance.

MAINTAINING THE BRUSHROLL

- 1 Open the brushroll garage by sliding both release buttons away from you, toward the back of the nozzle, then lifting off the lid. Remove any string, hair, or debris that may be wrapped around the brushroll by running scissors or the lower corner of the lid along the guide on the brushroll.
