

MAINTENANCE

Empty dust cup after each use

Filter Maintenance

Wash filters to keep the suction strong.

Rinse filters and allow to air-dry completely. Tap loose dirt from foam filters as needed between washes.

See enclosed Owner's Guide for complete details on removing and cleaning filters.

Brushroll Maintenance

Turn locks on bottom of floor nozzle counterclockwise to remove the brushroll cover. Run scissors along the guide on the brushroll to remove any string, hair, or debris. To close, replace the cover and turn locks counterclockwise.

Soft Roller Maintenance

Remove the Soft Roller by sliding up the button on the front of the floor nozzle. Clear away any debris, then reinstall the Soft Roller, sliding it in until it clicks into place.

- 5 Store accessories on the posts on the pod.

ASSEMBLY

2 WAYS TO CLEAN

DUOCLEAN™ TECHNOLOGY

ON FLOORS

Direct engagement with the Soft Roller removes large particles, small particles, and stuck-on dust.

Hard Floor

Gentle on bare floors and delicate area rugs.

ON CARPETS*

The Soft Roller pulls in large particles, while the deep-cleaning bristle brush removes embedded fine dirt.

Carpet

Optimized brushroll speed for carpets.

For complete instructions, see the enclosed Owner's Guide.

For additional parts and accessories, visit sharkaccessories.com

* For deep cleaning per ASTM F 608 (embedded dirt in carpet) please use in Carpet mode with suction control closed.
