Shark ION ROBOT CLEANING SYSTEM

Your home is more than just floors. And messes happen above the floor, too—dirt hides on your countertops, couch cushions, window sills, and stairs. That's why Shark® has developed an all-in-one answer to on-floor and above-floor cleaning to bring convenience to a new height.

**TWICE THE INNOVATION.
TWICE THE SHARK PERFORMANCE.**

Please be sure to read the enclosed Shark® Owner's Guide prior to using your robot cleaning system.

CONGRATULATIONS ON YOUR NEW SHARK ION™ ROBOT

Getting Started is Easy – Follow These Simple Steps To Get Cleaning

STEP 1 SET UP YOUR CHARGING DOCK

Place dock with its back against a wall on a level surface, in an open, central area that the robot can easily access. **Dock must be at least 3 feet away from corners.**

Plug dock into a power outlet.

STEP 2 INSTALL THE SIDE BRUSHES

The 2 included side brushes snap onto the square pegs on the bottom of the robot. Align the hole in the brush over the peg and press down **until brush clicks into place.**

STEP 3 CHARGE WITH THE DOCK

Handheld vacuum:

Insert handheld into the charging port on the dock. Charging is complete when the light on the handheld vacuum turns solid blue. (Approximately 2.5 hours for full charge.)

Robot:

Place robot on dock. **The Power switch must be ON to charge.** Blue lights will blink during charging, then illuminate steadily when charging is complete. (Approximately 3 hours for full charge.) When robot is fully charged, press the Clean button to start.

STEP 4 PREP YOUR HOME FOR CLEANING

Remove robot-trapping obstacles such as loose power cords, clothes, toys, and low-hanging drapes. Use BotBoundary™ strips to block off furniture and create no-go zones.

STEP 5 GET THE FULL EXPERIENCE WITH THE APP

With the **Shark ION Robot app**, you can easily schedule cleanings or send your robot into action from anywhere. Search "Shark ION Robot" in the app store, then download onto your iPhone™ or Android™.
