- 2 If there are loose threads on the micro-fiber cleaning pad carefully cut the thread with scissors. Do not pull on them or cut at the base. (fig. 16)

MAINTAINING YOUR STEAM MOP

Calcium and mineral deposits can build up and impact the performance of your steam mop over time.

To prolong the life of your mop, we strongly recommend that you use **Shark®**'s Water Filtration Bottle to prevent calcification build-up from first use. In addition, always use distilled water.
