## HOUSEHOLD USE ONLY

To reduce the risk of electric shock, this vacuum cleaner has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. **DO NOT force into outlet or try to modify to fit.**

## **⚠** WARNING

TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK OR INJURY:

### GENERAL WARNINGS

When using an electrical appliance, basic precautions should always be followed, including the following:

1. Inspect power cord and plug for any damage before use. **DO NOT** use vacuum cleaner with a damaged cord or plug. Turn off all controls before plugging in or unplugging the vacuum cleaner. If this occurs, immediately shut off power to the vacuum and remove the cord.
2. Your vacuum cleaner may consist of a motorized nozzle, wand, hose, and/or vacuum pod. This device contains electrical connections, electrical wiring, and moving parts that potentially present risk to the user.
3. Use only identical replacement parts.
4. Carefully observe and follow the instructions provided below to avoid improper use of the appliance. **DO NOT** use the vacuum for any purpose other than those described in this manual.
5. Before use, carefully inspect all parts for any damage. **DO NOT** use if any parts are damaged.

## TROUBLESHOOTING

### Power cord caught in brushroll or floor nozzle.

- To minimize the risk of power cord damage, DO NOT run the vacuum over the power cord. If this occurs, immediately shut off power to the vacuum and remove the cord from the brushroll or nozzle.
- Inspect power cord and plug for any damage before use. DO NOT use vacuum cleaner with a damaged cord or plug. Turn off all controls before plugging in or unplugging the vacuum cleaner. Store your vacuum cleaner with the power cord secured around the two cord hooks.

### Vacuum is not picking up dirt. No suction or light suction.

- Check filters to see if they need cleaning. Follow instructions for rinsing and drying the filters before reinstalling. See Cleaning and Replacing the Filters for more information.
- Dust cup may be full; empty dust cup.
- Check hose, hose connections, wand, nozzle, and accessories for blockages; clear blockages if required.
- Rotate the suction control collar on the handle clockwise to increase suction power.
- If dust cup is empty, and attachment inlets are clear, check for other blockages. See Checking for Blockages for more information.

### Vacuum lifts area rugs.

- Suction is powerful. Take care when vacuuming area rugs or rugs with delicately sewn edges. Rotate suction control collar counterclockwise to decrease suction power.

### Brushroll is jammed or has shut off.

- Immediately turn off and unplug vacuum, disconnect the nozzle, and remove blockage before reconnecting and turning vacuum back on. See Checking for Blockages for more information.

### Vacuum turns off on its own or indicator light flashes red.
