## XFBT620 IX140/IZ140 Series

### Battery Removal and Installation Instructions

#### IMPORTANT SAFETY INSTRUCTIONS

**FOR HOUSEHOLD USE ONLY  
READ CAREFULLY BEFORE USE  
SAVE THESE INSTRUCTIONS**

#### ⚠ WARNING

To reduce the risk of injury, fire, electric shock, and property damage resulting from improper use of the appliance, carefully observe the following instructions. This unit contains electrical connections and moving parts that potentially present risk to the user.

#### LITHIUM-ION BATTERY

1. The battery is the power source for the appliance. **DO NOT** carry the appliance with your finger on the power button. **DO NOT** charge appliance with the power on.
2. Use only the included charging dock to charge. Use of incorrect charger may create a risk of fire.
3. Use appliance only with included lithium-ion battery. Use of any other battery may create a risk of injury and fire.
4. Under abusive conditions, liquid may be ejected from the battery. Avoid contact with liquid, as it may cause irritation or burns. If contact occurs, flush with water. If liquid contacts eyes, seek medical help.
5. Store the appliance indoors. To maintain battery life, **DO NOT** use or store battery at temperatures below 37.4°F (3°C) or above 104°F (40°C).
6. **DO NOT** expose appliance to fire or temperature above 266°F (130°C) as it may cause explosion.
7. There are **NO** serviceable parts. To ensure safety, **DO NOT** modify or attempt to repair the appliance.

#### BATTERY REMOVAL AND DISPOSAL DO NOT incinerate or compost the battery.

When the Shark Li-Ion battery needs to be replaced, dispose of it or recycle it in accordance with local ordinances or regulations. In some areas, it is illegal to place spent lithium-ion batteries in the trash or in a municipal solid waste stream. Return spent batteries to an authorized recycling center or to the retailer for recycling. Contact your local recycling center for information on where to drop off the spent battery.

LITHIUM-ION  
BATTERY MUST  
BE RECYCLED  
OR DISPOSED OF  
PROPERLY

The RBRC™ (Rechargeable Battery Recycling Corporation) seal on the lithium-ion battery indicates that the costs to recycle the battery at the end of its useful life have already been paid by SharkNinja. In some areas, it is illegal to place spent lithium-ion batteries in the trash or municipal solid waste stream and the RBRC program provides an environmentally conscious alternative.

RBRC, in cooperation with SharkNinja and other battery users, has established programs in the United States and Canada to facilitate the collection of spent lithium-ion batteries. Help protect our environment and conserve natural resources by returning the spent lithium-ion battery to an authorized SharkNinja service center or to your local retailer for recycling. You may also contact your local recycling center for information on where to drop off the spent battery, or call 1-800-798-7398.

#### To remove battery:

1. Remove the handheld vacuum from the wand by pressing the wand release button and pulling up.

2. Use a Phillips-head screwdriver to remove the 4 screws on the battery pack cover on the bottom of the handheld vacuum.

3. Carefully remove battery pack cover.

4. Lift the battery out of the housing.

#### To install replacement battery:

1. If the battery pack cover is installed on the handheld vacuum, remove the 4 screws on the cover with a Phillips-head screwdriver and lift off the cover.
2. Insert the battery into the housing. Make sure the metal contacts on the battery touch the metal prongs on the housing.

Replace the cover, with the screw holes aligned. Reinstall the screws to secure the cover.
