### TIPS

When storing, wrap cord around cord hooks. For quick cord access, rotate upper hook down and remove cord.

When the vacuum is placed in the upright position, the retractable wheels will extend so the vacuum can stand up on its own.

### EMPTYING THE DUST CUP

Empty the dust cup after each use.

**MAINTENANCE:** Rinse pre-motor filters every month and HEPA filter once a year. Rinse with cold water only. Allow filters to air-dry completely before reinstalling.

See enclosed Owner's Guide for more information on how to clean and replace the filters.

### BRUSHROLL MAINTENANCE

#### Brushroll access

The self-cleaning brushroll automatically removes hair wrap. If some hair or debris remains after continued use, remove the cover to access the brushroll. Use a coin to turn the locks counterclockwise, then lift off the cover. Remove any debris or hair wrap and clear the debris intake.

To close, push down the cover until it clicks into place, then turn the locks clockwise.

#### Soft Roller

Slide the button on the floor nozzle to eject the Soft Roller. Tap off debris and wipe the roller clean with a dry towel.

## VERSATILE FLOOR-TO-CEILING CLEANING

### UPRIGHT

Step on the footprint icon on the floor nozzle and tilt the handle back, then press the power button on the back of the handle.

### ABOVE-FLOOR WITH WAND

For more reach, detach the wand and add an accessory. Step on the wand release pedal and lift the handle.

### WAND WITH EXTENDED HOSE

For even more flexibility with the wand, slide the hose cuff down to extend the integrated hose.

**NOTE:** When finished with the hose, slide the hose cuff back into place while reattaching the wand to the pod.

### LIFT-AWAY® POD WITH HOSE

To clean with the Lift-Away pod, detach it by pressing the Pod Release button. Attach an accessory for more reach. For added flexibility, slide the cuff down to extend the hose. To reattach the hose, slide the hose cuff back into place.
